- **Industry Innovation Challenges**
 - Industries can initiate innovation challenges through a structured multi-step curation process.
 - Detailed information about each innovation challenge is available.
 - Users can easily navigate through a list view showcasing all ongoing and past innovation challenges specific to industries.
 - Comprehensive list and detailed views are provided for proposals submitted in response to industry challenges, aiding in efficient evaluation and management.
- **Startup Innovation Challenges**
 - Startups can explore innovation challenges tailored to their needs, accessing pertinent details for informed participation.
 - A dedicated list view presents all active and previous innovation challenges relevant to startups, facilitating engagement.
 - Startups can submit proposals for innovation challenges using an intuitive multi-step form, ensuring thorough and structured curation.
 - The platform offers a streamlined overview and detailed insights into proposals submitted by startups, enhancing transparency and decision-making processes.
- **Researcher Innovation Challenges**
 - Researchers gain access to specialized innovation challenges, with comprehensive details provided for effective consideration.

- A categorized list view enables researchers to identify and engage with relevant innovation challenges efficiently.
- Researchers can contribute proposals through a user-friendly multi-step form, facilitating seamless participation in innovation initiatives.
- Detailed views of submitted proposals empower researchers with valuable insights and feedback, fostering collaboration and innovation.
- **Admin Management**
 - Administrators oversee the end-to-end curation process for innovation challenges, ensuring a structured and effective approach.
 - Detailed information and management tools enable administrators to monitor and manage each innovation challenge efficiently.
 - An organized list view offers administrators a comprehensive overview of all innovation challenges, categorized for clarity.
 - Comprehensive list and detailed views of submitted proposals provide administrators with valuable insights for evaluation and decision-making, facilitating effective management of the innovation ecosystem.

4. Profiles Module:

- **Industry Profiles**
 - Users can update their industry profiles with relevant information.
 - Detailed view of industry profiles is accessible.
 - Administrators have moderation capabilities over industry profiles, ensuring accuracy and compliance.
- **Researcher / SME Profiles**
 - Researchers and Subject Matter Experts (SMEs) can update their profiles with latest information.
 - Detailed view of researcher/SME profiles is available.
 - Administrators can moderate researcher/SME profiles for quality and relevance.

- **Startup Profiles**
 - Startups have the ability to update their profiles as needed.
 - Detailed view of startup profiles is provided.
 - Administrators oversee and moderate startup profiles to maintain integrity and authenticity.
- **VC Profiles**
 - Venture Capital firms can update their profiles with relevant details.
 - Detailed view of VC profiles is accessible.
 - Administrators ensure the accuracy and relevance of VC profiles through moderation.
- **Student Profiles**
 - Students can update their profiles with current information.
 - Detailed view of student profiles is provided.
 - Administrators maintain oversight and moderation of student profiles for consistency and appropriateness.

5. Landing page

- **Homepage:**
 - Provides an overview and gateway to the website's various sections and features.
- **About Us:**
 - Information about the organization, its mission, values, and history.
- **Programs and Initiatives:**
 - **Pre-Incubation Bootcamp:** Program designed to prepare startups for the incubation process.
 - **Incubation Programs:** Support and nurture early-stage startups to help them grow and succeed.
 - **Acceleration Programs:** Intensive programs aimed at scaling up startups to accelerate their growth.
 - **Innovation Network:** Connects innovators, entrepreneurs, and industry experts to foster collaboration.
 - **Venture Studio:** Platform for developing and launching new ventures and startups.

- **International Pavilion:** Initiative focused on fostering international partnerships and collaborations.
 - **FabLab & Design Studio:** Facilities and resources for prototyping, design, and innovation projects.
- **Innovation Ecosystem:**
 - Overview of the organization's ecosystem, including partners, collaborators, and stakeholders.
- **Events:**
 - Information about upcoming events, workshops, and conferences hosted or supported by the organization.
- **Join iTNT:**
 - Call to action for individuals or organizations interested in joining the organization's network or programs.
- **News:**
 - Latest updates, announcements, and news articles related to the organization and its activities.
- **News Details:**
 - Detailed information about specific news articles or updates.
- **Contact Us:**
 - Contact information and form for reaching out to the organization.
- **FAQs:**
 - Frequently asked questions and answers about the organization, its programs, and services.
- **Gallery:**
 - Collection of images and media showcasing events, activities, and achievements.
- **Team / People:**
 - Information about the team members, staff, and leadership of the organization.
- **Board Advisors:**
 - Profiles and information about the board of advisors guiding the organization's strategic direction.
- **Terms of Service:**

- Legal terms and conditions governing the use of the website and its services.
- **Privacy Policy:**
 - Policy outlining how the organization collects, uses, and protects user data and privacy.
