

1. **Open YouTube:** Go to the YouTube website (www.youtube.com) on your web browser.
2. **Find the Video:** Search for the video you're interested in or browse through your recommended videos until you find the one you want.
3. **Click on the Video:** Once you find the video, click on it to open and start playing it.
4. **Look at the URL:** At the top of your web browser, you'll see the address bar. The URL in the address bar is what you need.
5. **Find the "v=":** In the URL, look for a part that says "v=" followed by some letters and numbers. This is the video ID.
6. **Copy the Video ID:** Highlight and copy the letters and numbers after "v=" in the URL. This is the video ID.

That's it! Now you have the YouTube video ID copied, and you can use it for whatever purpose you need.
